

# DISCOVER SUCCESS

**“The programs demand hard work and dedication, but you will be rewarded and well-prepared for the future.”**

## **PATRICK BARTON**

**PURSUING: CLINICAL PSYCHOLOGY, M.A.**

**PSYCHOLOGY, B.A., MARS HILL UNIVERSITY, '18**

Patrick chose WCU to pursue a M.A. in Clinical Psychology because the program had an excellent reputation and was nestled in the mountains close to home. Patrick has worked at The Center for Research, Assessment, and Treatment Efficacy and the McKee Clinic and have found both to be very rewarding. He credits the clinical psychology program in helping him gain important practical experience and confidence in his own abilities. Patrick is also a combat veteran of the US Army and served in Afghanistan. He has found WCU to be military-friendly and an inclusive institution. After graduation, Patrick plans to apply to the Psy.D. program at WCU.
